

Peradeniya Wins the IEEE Global Website Contest 2016

The annual Global Website contest organized by the Institute of Electrical and Electronic Engineers (IEEE) was held recently. The team representing the student branch of University of Peradeniya was able to win the first place in Asia Pacific Region and then the first place at the global contest. Teams from all around the world, including giant nations like USA, Japan, India etc took part in this contest. The main purpose of their website is to enlighten the global community of the activities, research and projects carried out by the student branch. It also publishes technical articles produced by student members.

Institute of Electrical and Electronic Engineers (IEEE) is the world's largest professional organization with over 420 000 members from more than 160 countries. We cater for the technological enthusiastic professionals of the world in the related fields through standardization, technical conferences, financial and technical assistance, networking opportunities and many other ways to enable the advancement of technology for the betterment of humanity. IEEE Sri Lanka section, which is a part of IEEE Region 10 (Asia Pacific Region), is the local body of IEEE who are working towards the above mentioned common goals with the local community. IEEE Sri Lanka Section was established back in 2003 and currently we have a member base of over 1900, which spans from undergraduates to most senior citizens.
