

Application Form for Ethical Clearance for Research Faculty of Engineering University of Peradeniya

Complete all sections. Where selection boxes exist, select the appropriate answer with a $\ \square$ mark. Please refer to the **Guidelines for Ethical Clearance Application** before filling out the application.

1	Research Project Title							
	(Please use BLOCK							
	CAPITALS)							
2	Principal Investigator							
	Title (Prof/Dr/Mr/Ms)							
	Name							
	Designation							
	Place of Work							
	Address							
	Email				Phone			
	Are Co-Investigators invol	ved? (If yes, at	tach details s	separate	ely)	Yes	No	
	fill section 3 if there is/are snt. If not, skip to section 4.	upervisor/s for tl	he research բ	oroject a	and submit the appli	ication wit	th the supe	rvisor's
3	Supervisor					Yes	No	
	Title (Prof/Dr/Mr/Ms)					1.00	1.00	_
	Name							
	Designation							
	Place of Work							
	Address							
	Email				Phone			
	Are Co-Supervisors involve	ed (If ves. atta	ch details se	parately		Yes	No	
		(/ 55/ 5.555		, ,	,		1 110	
4	Study Area							
-	Engineering Social	Humanities	Health Sc	ience	Other (Please sp	ecify)		
	, , , , ,					,,,		
5	Proposed initiation and co	mpletion of data	a collection					
	Start date				End date			
6	Location/locations where	the study will be	conducted.					
	If the research is to be con	ducted at a site r	equiring adm	ninistrat	ive approval/conser	nt (e.g. in	a school), P	lease
	include all consent letters.							
	Location	Nature o			Activity	Invest	igator in Cha	rge
		(indoor/ou	itdoor)	(Inter	view/Observation)			
7	Does the research project			ics boar	d approvals?	Yes	No	,
	If yes, please provide a cop	y of the approva	l letter.					
0	Common of the 12 th the 1							
8	Source of funding (if any)							

9	Externally (foreign) funded projects	Yes	No				
	Is the study funded by a foreign country/organisation?						
	Are any approvals from foreign agencies received? (If yes, please attach)						
	Why is the research conducted in Sri Lanka and not in the sponsoring country?						
	What is the relevance of this study to Sri Lanka?						
-	What are the post-research benefits/risks to Sri Lanka?						
	Are the data/material/samples transferred overseas? (Provide details)						
1							
4.0							

10	Community-based or industry-based study
	What is the impact/relevance of the research on the community/organisation where the study is conducted?
	What steps are taken to consult with the concerned community during the research design?
	What procedures will be used to obtain community consent and individual consent?
	How will the research contribute to the capacity building of the community?
	What feedback will be provided to the participants after the project's completion?

Summary of the research proposal (proposal outline maximum 1000 words.
You could attach it as a separate document with the interview guide/questionnaires and other relevant information)

12	Data collection methods (Select all that apply)	Yes	No
	Anonymous questionnaires/surveys		
	Coded questionnaires/surveys		
	Identifiable questionnaires/surveys		
	Group interviews/focus groups		
	Social media participation/observation		
	Examination of confidential records		
	Individual interviews		
	Telephone/online interviews		
	Examination of student work/journals		
	Testing emotions		
	Audio-visual recording with consent		
	Audio-visual recording without consent		
	Overt observation of participants		
	Covert observation of participants		
	Procedures involving physical/laboratory experiments		
	Procedures involving administrative substances		
	Procedures involving human body testing		
	Procedures involving animals/wildlife		
Other (Please specify):			

13	Confidentiality		
	How are data samples obtained? (What is the format)		
	How long will data samples be kept?		
	How would the records be destroyed after the study?		
	Who will have access to the personal data of the research participants?		
	who will have access to the personal data of the research participants:		
	How is the privacy of each participant safeguarded?		
	now is the privacy of each participant safeguarded?		
	What is the storage procedure for data?		
	If data are kept for future studies, will appropriate consent be obtained?		
	-		
14	Fair selection of the study participants		
	What is the study population (if applicable)?		
	What is the justification for selecting the study population?		
	3 7.1 1		
	Is there a selection criterion for participants to minimise the risks and maximise the benefits to	distribut	e the
	burden of research equitably?	aistribut	
	burden or research equitably:		
	What is the plan for initial contact and recruitment of participants?		
	What is the plan for initial contact and recruitment of participants:		
15	Rewards for participants:		
13	If the study participants are paid/rewarded financially or in kind, please justify the need for such	·h	
	compensation.	,11	
	compensation.		
1.0	Process of informed consent	Vaa	Na
16		Yes	No
	Is the consent form included with the application? (Along with Sinhala/Tamil translation if applicable?		
	Is the information sheet included with the application? (Along with Sinhala/Tamil translation if		
	applicable? How is consent obtained voluntarily without deception, intimidation, and inducement?		
	now is consent obtained voluntarily without deception, intimidation, and inducement:		
	Mill for the information of the state of the superstance of the superstance of the state of the		
	Will fresh informed consent be obtained if the procedures change during the research?		
17	Rights of the Participants		
	How is the participant's unconditional right to withdraw from the study at any time ensured?		
	Is there a method for participants to register any complaints during the study?		
	Is there a provision to make the study results available to the participants at the end of the stu	dy?	
18	The scientific significance of the study and validity		
	What is the scientific significance of the study in relation to improving the product/system and	/or know	ledge
	on the subject?	, or know	icuge
	on the subject.		
	Is your study an original/or a replication of a previous study? Original Re	eplication	
		piication	
	If the study is a replication, please provide details and justification.		
	Are the facilities at the site adequate to support your study?		

	How will the results of the study be disseminated?					
10	Assessment of violatile to an office					
19	Assessment of risks/benefits (Please indicate all potential risks to the participants/organisation/community engaged with the study)	Yes	No			
	Does the study involve children/any other underprivileged/vulnerable/differently abled					
	participants?					
	Are there any possible physical/psychological/emotional risks to the respondents?					
	Are there any social risks to the respondents? (e.g., risk of privacy/confidentiality of status,					
	gender, identity, religion etc.)					
	Is there any legal risk to the respondents? (e.g., loss of job, confidentiality of design, patents					
	Are there any environmental ricks involved? (e.g., disposal of toxic substances, waste, etc.)					
	Are there any environmental risks involved? (e.g., disposal of toxic substances, waste, etc.) If the answer to any of the above is "yes", please explain the risks (to participants/organisations/environment)					
	and the plan (proposed in your research project) to minimise the risks mentioned above.	3/ 61141101	intent			
	and the plan (proposed in your research project) to minimise the risks mentioned above.					
	Are there any benefits to the respondents/community/system or other stakeholders?					
	If the answer to the above is "Yes", please explain the benefits.					
	Justify the potential benefits compared to the risks (if applicable)					
		2 را د ند د دا ه	115			
	Is there adequate social/psychological support planned for the respondents to compensate for applicable)	the risk?	' (IT			
	аррисавіе)					
20	Effects on Participants/Organisations/Society					
	(Please record relevant procedures for handling any possible positive or adverse (physical/psychological/emotional) effects on participants from the study)					
	What is the procedure for reporting adverse effects on the participants/organisations/society of	of the stu	dv?			
	which is the procedure for reporting deverse effects on the participants/organisations/society of the study:					
	What is the procedure for dealing with adverse effects on the participants/ organisations/society of the study?					
	What is the possibility of an effective intervention for the participants/organisations/society, if	found, b	eing			
	available to the population?					
21	What are the provisions for safety monitoring and termination of research?					
	(Please report any safety procedure related to handling equipment, site visits, encountered crises, etc., and related ter	mination if				
	necessary)					
	<u> </u>					
22	Conflicts of interest					
	Will the investigators and or their partners or immediate family members receive any personal					
	as financial, intellectual property rights, employment, consultancies, board memberships, share	e owners	hips,			
	etc. as a result of involvement of this study? If yes, please explain.					
23	Are other concerns deemed relevant not specified above?					
23	Are other concerns deemed relevant not specified above?					

I have attached the additional documents below:

the application)
