Engineering Management

ENTREPRENEURSHIP WORKSHOP SERIES

The Engineering Technology Incubation Centre & The Department of Engineering Management

Present

“How to Register Your Business?”

Are you ready to commercialize
your idea?

What type of business registration
suits your business?

What documents are required to
register your business?

By Eng. Asela Bandara

Asela Bandara graduated from the University of Peradeniya and is currently an entrepreneur engaged in engineering-related businesses in Sri Lanka and the United Arab Emirates. He is the founder and the Managing Director of ICEC Gulf, a well-established company in the UAE that specializes in providing technical training for engineers in major power plants and offering project management services to the UAE construction industry. Since 2021, he has also been serving as a visiting lecturer for the Department of Engineering Management.
